

# MAKE YOUR OWN INFINITY SCARF

WHAT YOU NEED:  
35cm x 150cm fur  
35cm x 150cm fleece  
or preferred backing  
fabric

Cut and straighten  
edges of the fleece to  
measure 30x150cm  
(12x60")

Trim selvedge

Lay fleece on the  
back side of the  
fur and pin all  
around

Cut fur fabric to the  
same size as the  
fleece fabric.  
When cutting the fur  
try to cut the  
backing only and  
not the fur pile

Remove pins, separate fur and  
fleece and stitch 1cm along  
the edges of the fur piece  
pushing the fur towards the  
center of the fabric. This will  
make it easier to join and stitch the  
fleece and fur together

With right sides  
together, pin along  
both lengths

Stitch 1cm from  
the edge on each  
side. Turn inside  
out

Fold in half and match both ends of the  
fur RIGHT sides together, pinning  
along as far as possible.  
Stitch 1cm along where pinned

Lay flat, fold  
opening edges of the  
fleece to the inside  
and machine  
stitch closed
