

MAKE YOUR OWN

Ribbon Windsock

Materials

8" embroidery hoop
Swivel Hook
Scissors
Hot Glue Gun
Various ribbons, trims and laces (approx 30m used here)
Tassels (optional)

Step 1

Use 60cm (24") to cover the outer ring of the embroidery hoop. A light bead of glue will hold this in place. 9mm Small Dot Grosgrain is being used in the sample.

Step 2

Glue a 60cm (24") length of lace fringe to the inside of the outer ring. This adds an extra dimension of movement to the windsock.

Step 3

Attach ribbons to inner ring. Used here: 12 pieces 25mm grosgrain (glued 50cm), 8 pieces 6mm satin (tied on, 1.2m), 8 pieces 25mm organza (tied, 1.6m), 8 pieces 9mm petersham (glued, 1.6m)

Step 4

Use a 25cm piece of 3mm rayon cord and push it through the lace to attach it to the hoop. Use a square knot to secure it to the hoop. OPTIONAL: tie in 2 pairs of red and white tassels when tying the knots.

Step 5

Repeat step 4 on the opposite side of the embroidery hoop. Tie the loose ends of the 3mm rayon cord with square knots to the swivel hook.

MAKE YOUR OWN Ribbon Wall Hanging

Materials

1m (36") square dowel
20mm D-Rings
Scissors
Hot Glue Gun
Various ribbons, trims and laces

Step 1

Use the hot glue gun to attach the ribbons and trim to the dowel.

Step 2

Loop small pieces of ribbon through the D-rings. Glue these together and place on the ends of the dowel. Use them to hang it on the wall.

Note: the amount of trim and ribbon used will depend on the widths of trim and ribbon selected. 38m is an approximation based on the sample image.

MAKE YOUR OWN Ribbon Wands

Materials 1 x 48"x 1/4" wooden dowel cut into 4 x 12" pieces, Hot Glue Gun, Various trims and ribbons

Step 1

(Optional) Glue end of ribbon to end of dowel. Wrap ribbon around wand until you reach the other end and glue to secure.

Step 2

Wrap trims and ribbons around the top end of wand and glue to secure. Use various lengths from 30-80cm to create a varied and interesting look.
