

# Two Tone Infinity Scarf

## What you need:

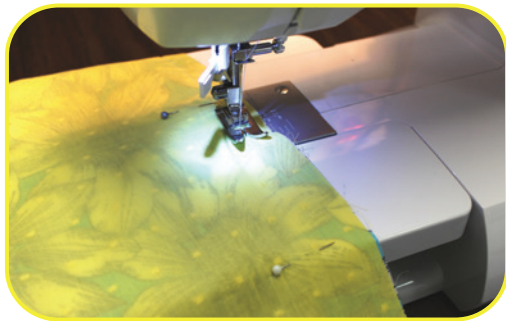

1m of main fabric  
1m of contrast fabric  
208 cm (82") of trim  
Scissors, thread, pins,  
sewing machine

## What you do:

Cut 1 piece 1m x 1m of  
main fabric  
Cut 1 piece 1m x 1m of  
contrast fabric  
Seam allowance 1.25cm (1/2")

1

With right sides together, sew main fabric & contrast fabric along one edge. Press seam open.

4

Turn tube right side out. Matching the side seams, pin right sides together. As you pin the tube will start to close, so only pin as far as you can go. Sew the edges together leaving a 10-12cm (4-5") opening.

2

Pin & baste trim to the right side of one lengthwise edge, curving the ends of the trim towards the seam allowance as shown.

5

Press the seam allowances of opening inward. With a needle and thread, handstitch opening closed.

3

Fold piece in half lengthwise with right sides together. Sew seam, making sure that you are not stitching over the trim. You will now have a long fabric tube. Press seam open and then flat.

...and  
you're  
done!
