### PUTTING YOUR RUNNER TOGETHER:

Lay your backing fabric onto a flat surface, wrong sides up. Spray backing fabric with basting spray and lay batting on top, smoothing out the wrinkles. Spray batting with basting spray and lay runner on top leaving 2" border of batting showing. Backing and batting will be larger than the top. Smooth out wrinkles.

You will need to quilt layers together. You can do as little or as much quilting as you would like. Once you're done quilting, trim excess of backing and batting fabric to match the front.

For the binding, Cut 2.5" strips with remainder of Colour D, joining strips end to end to a length of approx. 180" total. Fold in half lengthwise and press.

Sew binding all around using 1/4" to top of runner, carefully folding corners to create a mitered look; and hand-stitch the binding around to the back of the quilt to encase the raw edge.

Your table runner is now ready to add pizzazz to your holiday table decor and impress your family and friends!
