

FUZZY FUR THROW

in 1 hour or less!

What you need:

1.3m chenille fur
1.3m micro chenille
scissors, pins, needle &
thread and a sewing
machine

What you do:

1 On the floor or other large work surface, lay the micro chenille right side UP. On top of the micro chenille, lay the chenille fur right side DOWN and pin.

TIP: use a lot of pins as this will make it easier to cut and sew.

2 Cut the edges to straighten and be sure that the 2 pieces are the same size.

3 Sew all the way around using a 3/4" (2cm) seam allowance leaving a 10" (25cm) opening. Clip the corners and turn right sides out.

4 Pin opening together and hand sew the chenille to the fur to close.

Finished size approx 50x60" (125x150cm)
