

# TOOTH FAIRY POUCH

## What You Need:

- ☛ Felt (light & medium weight)
- ☛ Rick Rack or other trim
- ☛ Sewing Machine & Thread
- ☛ Felt Glue
- ☛ Pencil / Scissors / Ruler

Step 1: Measure & cut a 3.5" x 9" (9cm x 23cm) rectangle out of medium weight felt.

## ☛ OPTIONAL DECORATION ☛

Cut ONE end of the rectangle into shape to create a fun design.

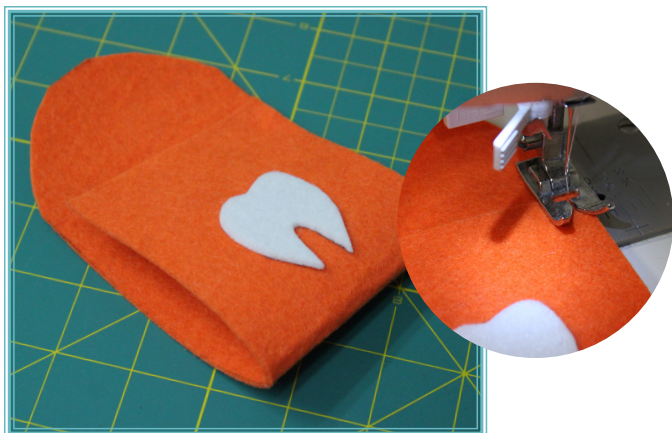

Step 2: Using the tooth template provided, cut out the shape from light weight felt.

Step 3: Attach the felt tooth 1.75" (4.5cm) down from the top edge of the rectangle, but not the end that was cut in the Optional Decoration.

Step 4: Fold the rectangle, leaving approximately 1.25" (3cm) sticking out. Sew up the sides of the folded area using a 1/4" seam. This will create the pocket of your pouch.

Step 5: After sewing, snip just past the sewn area and down. Be careful not to cut too far! This will create the envelope closure of your pouch.

Step 6: Fold the end into the opening of the pouch.

Step 7: Flip your project over and start decorating!

Get creative & personalize your pouch with felt letters, rick rack or even buttons!
