

# Flexible Glitter

# Bunny Ears (Kids)

What you need:

- ✿ Measuring tape
- ✿ Quilting Pins
- ✿ Craft Scissors
- ✿ Hot Glue Gun
- ✿ Hand Sewing Needle
- ✿ White Thread

- ✿ Glitter Tulle Spool
- ✿ 1 Metre Scroll Gimp
- ✿ 2 Metres Colourful Fringe
- ✿ Headband
- ✿ Nose Bridge with Adhesive

( \ / )  
 ( . . )  
 C ( " ) ( " )

Step 1: Cut out 2 layers of tulle per bunny ear.  
 (See Bunny Ear pattern)

Step 2: Pin 2 layers together to stabilize pieces. Glitter facing the outside.

Step 3: Take sticker peel off the nose bridge.

Step 4: Stick nose bridge with adhesive onto tulle TIP: Cut metal to better fit the shape of the ears.

Step 5: Sew gimp over nose bridge material by hand.

Step 6: Flip ear.

Step 7: Stick nose bridge pieces to tulle covering stitches. Both sides now have the nose bridge pieces.

Step 8: Sew gimp over nose bridge material by hand. This time, sew the inside of the gimp together followed by the outside together.

Step 9: Your Ears are done and need to be attached to the headband, but first we're going to decorate the headband itself.

Step 10: Take 9 pieces of fringe. Divide them into 3 pieces and braid them. Keep them together by hot glue gunning the ends. Do this for at least 1 metre worth of fringe.

Step 11: Hand sew or hot glue gun braided fringe to bottom of hair band.

Step 12: Take the second layer and sew or hot glue gun it facing the opposite direction.

Step 13: Hot glue gun braided fringe to DIY headband layering each side. Cut off loose unbraided tail.

Step 10: Bend bottom of bunny ears and hot glue gun it to the DIY headband. Cover with braid.
