Easter Wreath

Difficulty: Beginner

Time: Approx 2 hours

This felt and ribbon wreath is an easy seasonal springtime decoration for your home. Use it to add a gorgeous splash of fresh pastels to your front door or fireplace mantel.

Once your wreath is covered, use the templates to customize as you wish! Stencil templates for the wreath, bunnies and eggs are included with this tutorial.

MATERIALS

1x 12" or 18" Metal Wreath (5985001000 or 5985002000)

1-2 9m spools of 100mm Glitter Mesh Ribbon

7-11 sheets of 22.9 x 30.5cm Glitter Felt

1-2 Spools Glitter Tulle

Scissors

Glue Gun

Optional

Mesh Wrap for Bow

Felt for Rabbit and Egg cutouts

WREATH DIRECTIONS

Step One:

Cut out the attached wreath 'base' stencil and trace it on the back of the glitter felt sheet. You will be able to trace 3 base cut outs from each sheet. The 12" wreath will take approximately 7-8 sheets of felt to cover it and the 18" wreath will take about 11-12 sheets.

Step Two:

Once all the base felt pieces have been cut, start cutting the glitter mesh.

Using the felt wreath pieces as a template, cut a piece of glitter mesh ribbon into a piece of the same length and shape.

Step Three:

Use hot glue to attach the glitter mesh ribbon to the glitter felt. Make sure that the first peak of the ribbon is offset to the first valley of the felt.

You may alternate colours of the mesh to add variety to the wreath. The pink wreath on page 1 alternates between pink and purple glitter mesh.

Step Four:

Once all the felt and glitter mesh pieces have been glued together, start wrapping and hot gluing them around the metal wreath.

Leave the first piece slightly loose, so the last felt and glitter mesh piece will be able to be placed under it.

Step Five:

Continue wrapping and hot gluing the felt and ribbon pieces around the wreath until it is completely covered. Make sure that the final piece is placed securely under the first and glue them both in place.

Now it's time to customize with felt cutouts and pompoms to complete your design!

POMPOM DIRECTIONS

Step One:

Cut a 5"/ 12.5cm length of Glitter Tulle and set aside.

Step Two:

For a medium sized pom-pom, wrap tulle around 2 fingers 18-20 times. Cut the tulle and slide off of fingers.

For larger or smaller pom-poms, wrap the tulle around more or fewer fingers.

Step Three:

Use the 5"/12.5cm piece of tulle to tie the bundle across the middle. Use scissors to cut the bundle open.

Step Four:

Once the pom-pom has been cut open, it will be misshapen. Use the scissors to trim it into a round shape.

Use these pom-poms as fluffy rabbit tails to your felt cut outs, or hot glue two pom-poms together to make a baby chick.
